

El-Mul Completes Merger with WETSEM[®] Technology Firm Quantomix[®]

YAVNE, ISRAEL (10 December 2009)

El-Mul Technologies, a leading supplier of particle detectors and field emitters used mainly in electron and ion beam tools, announced today the completion of the merger with Quantomix, developer and manufacturer of WETSEM Technology, starting January 1, 2010.

In November 2007, El-Mul Technologies announced the acquisition of Quantomix. Two years later, the merger of the two companies will now be complete.

Starting January 1, 2010, Quantomix will operate fully within the El-Mul Technologies framework, legally, financially and operationally.

The “Quantomix” brand will be maintained alongside with the leading brand name "WETSEM Technology". All new formal documentation will be under the name of El-Mul Technologies.

Customers, suppliers and others who have been working with Quantomix will enjoy a smooth transition. El-Mul will continue to support WETSEM Technologies products and applications.
